

SISTER

Sister, did you have to fall in love
With a man, that never was
Up to no good, he took your soul
And he stole your only heart
Flipped your wig and left a permanent scar

Sister, did you have to go away
You left your home, and the things you had to say
It didn't feel good to let you slide
I never got to say goodbye
I miss you girl I think I'm gonna cry

SOLO + INTERLUDE : If they knock on your door
You already gave
You don't need no more of what's ailing you
Just lean on your soul with all that it takes
May God bring you back home to America...
America

Sister, sister, sister, sister, sister, it's just a taste of faith
Your heart is pure so the devil's in your face
I'll see you soon
'Cause they haven't got a case
And you'll be free, in a beautiful place

INTERLUDE : If they knock on your door
You already gave
